

**BEHR
CLAWS**

The World's Best Carpet Re-Stretcher

The ready to use Behr Claws let you get to work right away without having to assemble your power stretcher every time you want to use it. The compact design stores neatly behind the seat of your van. Its claws grab hold of the tackless and pulls the carpet to the proper tension. After securely attaching the carpet to the tackless, simply remove the Behr Claws, trim the carpet, and tuck the edge under the baseboard. Quick, simple re-stretches and re-lays are what Behr Claws is about. You can buy Behr Claws alone to use with your existing power stretcher, or buy the optional Power Stretcher Junior Head. Each sold separately.

Power Stretcher Head not included.

What people are saying about Behr Claws

"We've been in business for 5 years and we do tons of re-installs. When I first saw the Behr Claws I was very skeptical but we bought one after seeing a demo.

Now we swear by it. We can re-install twice as fast as before. We're very happy with this product. We also do re-stretches on carpet where we find a bubble. Those add up to an extra \$125 for just another 15-20 minutes worth of work.

We used to use a power stretcher. Now we don't have to haul around all the big heavy poles. We just have our Behr Claws in a nice slot on our truck and it goes with us on every job. It pays for itself every day; a real money-maker.

Using the proper process with the aluminum nails and two techs, we can stretch a whole basement in the same amount of time it used to take us to just set up our old system.

Our team is using four Behr Claws now and we'll never go back to the old way."
