

# Ultrasnap™

## ATP Testing Device

Ultrasnap is a user-friendly, self-contained ATP testing device. The test is made up of a premoistened swab bud with a cationic agent to release ATP from any intact cells and aid in soil removal; a unique liquid-stable enzyme reagent; and patented Snap Valve technology for easy activation. The unique liquid-stable enzyme reagent offers exceptional accuracy and reproducibility. Ultrasnap can be used in any of Hygiena's ATP hygiene monitoring systems.

Key Features	
✔	All-in-one sampling device
✔	Easy to use
✔	Results in seconds
✔	Unique liquid-stable reagent provides unprecedented accuracy & reproducibility
✔	12-month shelf life at refrigerated temperatures (2-8°C)
✔	4-week shelf life at room temperatures (21°C)
✔	Tolerant to temperature abuse and sanitizers
✔	Costs up to 50% less than other ATP tests

(100 tests per box)

The logo for AQUASNAP™ is displayed in a bold, white, sans-serif font. The letters are closely spaced, and the trademark symbol (TM) is positioned to the upper right of the word. The text is set against a background of a blue and white abstract graphic that resembles water splashing or a dynamic, fluid motion. The blue tones range from light cyan to a deeper, darker blue, creating a sense of depth and movement. The overall composition is clean and modern, emphasizing the brand name.
