- X Oriental Rugs
 - X Residential Wool Carpet
 - X Commercial Wool Carpet
- 3.0 - 3.5 RTU pH
- X = Primary Use ✓ = Secondary Use

- Multi-functional as it stabilizes dyes, works to prevent browning and yellowing, pH neutralizes the carpet, limits re-soiling and leaves a soft luxurious feel.
- Unique as it uses proprietary acidic rinse agent that has been used to scour wool during wool processing.
- Safe and effective for all water safe natural fibers and synthetic fibers.
- Protects your equipment as it contains two special corrosion inhibitors to protect any metals in your extraction equipment.
- Works effectively with any type of extraction equipment – truckmounts, and portables.

DIRECTIONS:

Pre-Cleaning Procedures

1. Read entire label before using. Use only as directed.
2. Carefully pre-inspect the rug, fabric, or carpet before proceeding. Identify fiber content, construction, dye stability, shrinkage considerations, and pre-existing damage. Always test every rug, fabric or carpet for dye bleeding potential in an inconspicuous area. Carefully look for conditions which could contribute to cleaning related challenges such as pre-existing pet urine, water damage, fiber deterioration, past cleaning residues, and fringe discoloration.
3. The preferred method for cleaning investment textile rugs is in-plant.
4. If cleaning on-location, proper preparation of the work area must include:

- a. Make sure there is adequate airflow for drying and ventilation.
 - b. Adequate and safe work area where you can safely move the required cleaning equipment and tools around and the rug can be safely cleaned on the floor without causing damage to or from other surfaces which might bleed color when moist or wet.
 - c. Always keep white, cotton, colorfast towels handy to wipe up any cleaning solution overspray which may get on other surfaces
5. Prior to wet cleaning, remove as much dry soil as possible from the rug utilizing a vacuum (with a beater bar), portable rug dusting unit, compressed air system, or automated duster. Follow equipment manufacturer directions.

Extraction Cleaning
