

Product Spec Sheet

MoldHold™ MH0042 - 18" x 50' roll

MoldHold™ MH0042 is a 7 mil specially formulated source containment tape.

MoldHold's "all-in-one" design simply rolls over wet mold to contain it - instantly. No more fumbling with plastic, tapes that don't stick, and staples. MoldHold™ can be applied with one worker ... making the site safer for all.

Equally suitable for containing lead, asbestos and other potentially airborne toxins. Contains no vocs.

Should be considered a temporary solution as part of a well-planned, managed remediation.

Product Features

- * Works instantly
- * Makes site safer
- * Reduces liability waiting for insurance approvals
- * Sticks to wet surfaces
- * 2 years shelf life
- * Helps manage job
