

# Odor Sealer

Urine and More

## Odor Sealer

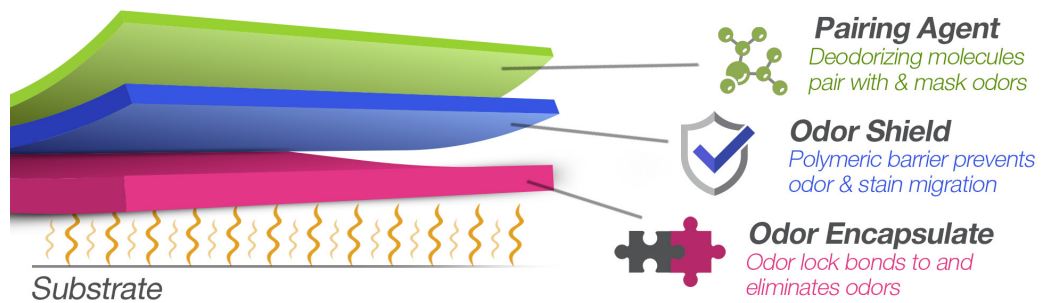

Bridgepoint Systems Odor Sealer Urine & More eliminates strong odors on contact and seals surfaces to prevent stains from leeching into the top coat. Suitable for use on untreated wood, sheetrock, masonry, concrete, and other porous hard surfaces.

- Water-based solution is easily rinsed from equipment after use
- Solvent free formulation
- One-coat application
- Durable and adheres to many types of surfaces
- No Prop 65 ingredients

## USES 3 PROVEN METHODS TO ELIMINATE ODORS

- 1. PAIRING AGENT:** Deodorizing molecules pair with and mask odors
- 2. ODOR SHIELD:** Polymeric barrier prevents odor and stain migration
- 3. ODOR ENCAPSULATE:** Odor lock bonds to and eliminates odors

Coverage: 100 (most porous) to 400 (least porous) sq. ft. per gallon.

Part Number: 1665-7518

RTU pH - 7.0

Contents: One U.S. Gallon (3.79 Litres)

Available in Gallons and 4 x 1

## DIRECTIONS

1. Clean surface with appropriate cleaner based on surface requirements.
2. Thoroughly deodorize areas with direct spray or wet fogging of Hydrocide or other odor encapsulate.
3. Wait until surface is dry and apply Odor Sealer to seal in remaining odors and prevent stains from wicking to surface. Test in a small area to determine proper bonding. Mix and apply like paint using brush, roller or airless sprayer. Two coats may be necessary on heavily stained or porous surfaces.
4. Odor Sealer dries clear, with a slight milky color. Once dry, surface may be painted, or carpet and tile installed.
