# **SAFETY DATA SHEET**

## #42 Ultra Spray Cleaner

Section 1. Identi	fication
GHS product identifier	: #42 Ultra Spray Cleaner
Other means of identification	: 2742SC
Product type	: Liquid
Relevant identified uses o	f the substance or mixture and uses advised against
Not applicable	
Supplier's details	: Essential Industries, Inc. P.O. Box 12 Merton, WI 53056-0012 Phone: 262-538-1122
Emergency telephone number (with hours of operation)	: 800-843-6174 (24 Hours)
Section 2. Hazar	ds identification
OSHA/HCS status	: While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this MSDS contains valuable information critical to the safe handling and proper use of the product. This MSDS should be retained and available for employees and other users of this product.
Classification of the substance or mixture	: Not classified.
GHS label elements	
Signal word	: No signal word.
Hazard statements	: No known significant effects or critical hazards.
Precautionary statement	<u>S</u>
General	: Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand.
Prevention	: Not applicable
Response	: Not applicable
Storage	: Not applicable
Disposal	: Not applicable
Hazards not otherwise classified	: None known.

Date of issue/Date of revision	: 7/21/2017	Date of previous issue	: 2/20/2015	Version	:0.03

1/10

# Section 3. Composition/information on ingredients

#### Substance/mixture Other means of identification

: Mixture

: Not available

#### **CAS number/other identifiers**

CAS number	: Not applicable
Product code	: 2742SC

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section. Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

#### Description of necessary first aid measures

Eye contact	<ul> <li>Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.</li> </ul>
Inhalation	: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
Skin contact	<ul> <li>Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.</li> </ul>
Ingestion	Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

#### Most important symptoms/effects, acute and delayed

Potential acute health effe	<u>cts</u>
Eye contact	: No known significant effects or critical hazards.
Inhalation	: No known significant effects or critical hazards.
Skin contact	: No known significant effects or critical hazards.
Ingestion	: No known significant effects or critical hazards.
Over-exposure signs/symp	<u>otoms</u>
Eye contact	: No specific data.
Inhalation	: No specific data.
Skin contact	: No specific data.
Ingestion	: No specific data.
Indication of immediate me	dical attention and special treatment needed, if necessary
Notes to physician	: Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Specific treatments	: No specific treatment.
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training.

	Date of issue/Date of revision	: 7/21/2017	Date of previous issue	: 2/20/2015	Version : 0.03	2/10
--	--------------------------------	-------------	------------------------	-------------	----------------	------

# Section 4. First aid measures

See toxicological information (section 8)

# Section 5. Fire-fighting measures

Extinguishing media	
Suitable extinguishing media	: Use an extinguishing agent suitable for the surrounding fire.
Unsuitable extinguishing media	: None known.
Specific hazards arising from the chemical	: In a fire or if heated, a pressure increase will occur and the container may burst.
Hazardous thermal decomposition products	: Decomposition products may include the following materials: carbon dioxide carbon monoxide metal oxide/oxides
Special protective actions for fire-fighters	<ul> <li>Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.</li> </ul>
Special protective equipment for fire-fighters	: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

# Section 6. Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

For non-emergency personnel	:	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.			
For emergency responders	:	If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".			
Environmental precautions	:	Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).			
Methods and materials for co	<u>nt</u>	ainment and cleaning up			
Small spill	:	Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.			
Large spill	:	Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.			
Date of issue/Date of revision		: 7/21/2017 Date of previous issue : 2/20/2015 Version : 0.03 3/10			

# Section 7. Handling and storage

#### Precautions for safe handling

Protective measures Advice on general occupational hygiene		Put on appropriate personal protective equipment (see Section 8). Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
Conditions for safe storage, including any incompatibilities	:	Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

## Section 8. Exposure controls/personal protection

#### **Control parameters Occupational exposure limits** None. **Appropriate engineering** : Good general ventilation should be sufficient to control worker exposure to airborne contaminants. controls **Environmental exposure** : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some controls cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels. Individual protection measures **Hygiene measures** : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location. : Safety eyewear complying with an approved standard should be used when a risk Eye/face protection assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with sideshields. Skin protection Hand protection : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: Chemical-resistant gloves. : Personal protective equipment for the body should be selected based on the task being **Body protection** performed and the risks involved and should be approved by a specialist before handling this product.

Date of issue/Date of revision	: 7/21/2017	Date of previous issue	: 2/20/2015	Version : 0.03	4/10
--------------------------------	-------------	------------------------	-------------	----------------	------

# Section 8. Exposure controls/personal protection

Other skin protection	<ul> <li>Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.</li> </ul>
Respiratory protection	: Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

# Section 9. Physical and chemical properties

<u>Appearance</u>		
Physical state	: Liquid	
Color	: Yellow/ Green (dye added)	
Odor	: Herbal (Fragrance added)	
Odor threshold	Not available	
рН	7 to 8 [7.1 use dilution]	
Melting point	: 0°C (32°F)	
Boiling point	: 100°C (212°F)	
Flash point	Closed cup: >93.334°C (>200°F)	
Evaporation rate	Not available	
Flammability (solid, gas)	Not available	
Lower and upper explosive (flammable) limits	Not available	
Vapor pressure	: <4 kPa (<30 mm Hg) [room temperature]	
Vapor density	<pre>1 [Air = 1]</pre>	
Specific gravity	: 1.04 g/cm³	
Solubility	Not available	
Partition coefficient: n- octanol/water	Not available	
Auto-ignition temperature	Not available	
Viscosity	Not available	
VOC content	: 0%	
VOCs are calculated following the requirements ur	40 CFR, Part 59, Subpart C for Consumer Products and Subpart D for Architectural Coatings.	

# Section 10. Stability and reactivity

Date of issue/Date of revision	: 7/21/2017 Date of previous issue : 2/20/2015 Version : 0.03 5/10					
Conditions to avoid	: No specific data.					
Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.					
Chemical stability	: The product is stable.					
Reactivity	: No specific test data related to reactivity available for this product or its ingredients.					

# Section 10. Stability and reactivity

Incompatible materials

: No specific data.

Hazardous decomposition : Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## Section 11. Toxicological information

#### Information on toxicological effects

#### **Acute toxicity**

Not available

#### Irritation/Corrosion

Not available

#### **Sensitization**

Not available

#### **Mutagenicity**

Not available

#### **Carcinogenicity**

Not available

#### Reproductive toxicity

Not available

#### **Teratogenicity**

Not available

#### Specific target organ toxicity (single exposure)

Not available

#### Specific target organ toxicity (repeated exposure)

Not available

#### Aspiration hazard

Not available

# Information on the likely : Not available routes of exposure

#### Potential acute health effects

Eye contact	: No known significant effects or critical hazards.
Inhalation	: No known significant effects or critical hazards.
Skin contact	: No known significant effects or critical hazards.
Ingestion	: No known significant effects or critical hazards.

# Symptoms related to the physical, chemical and toxicological characteristicsEye contact: No specific data.Inhalation: No specific data.

#### Date of issue/Date of revision

#42 Ultra Spray Cleaner	#42	Ultra	Spray	Cleaner

# Section 11. Toxicological information

Skin contact Ingestion

- : No specific data.
- : No specific data.

	ts an	d also chronic effects from short and long term exposure
<u>Short term exposure</u>		
Potential immediate effects	: N	ot available
Potential delayed effects	: N	ot available
Long term exposure		
Potential immediate effects	: N	ot available
Potential delayed effects	: N	ot available
Potential chronic health effe	<u>cts</u>	
Not available		
General	: N	o known significant effects or critical hazards.
Carcinogenicity	: N	o known significant effects or critical hazards.
Mutagenicity	: N	o known significant effects or critical hazards.
Teratogenicity	: N	o known significant effects or critical hazards.
<b>Developmental effects</b>	: N	o known significant effects or critical hazards.
Fertility effects	: N	o known significant effects or critical hazards.

#### Numerical measures of toxicity

Acute toxicity estimates

Not available

# Section 12. Ecological information

#### **Toxicity**

Not available

#### Persistence and degradability

Not available

#### **Bioaccumulative potential**

Not available

#### **Mobility in soil**

Soil/water partition coefficient (Koc)

: Not available

#### Other adverse effects : No known significant effects or critical hazards.

: 7/21/2017 Date of previous issue

: 2/20/2015

## Section 13. Disposal considerations

**Disposal methods** 

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

### Section 14. Transport information

	DOT Classification	IMDG	ΙΑΤΑ
UN number	Not regulated	Not regulated	Not regulated
UN proper shipping name	-	-	-
Transport hazard class(es)	-	-	-
Packing group	-	-	-
Environmental hazards	No.	No.	No.
Additional information	-	-	-

Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not available to Annex II of MARPOL and the IBC Code

# Section 15. Regulatory information

U.S. Federal regulations : United States inventory (TSCA 8b): All components are listed or exempted.						
Clean Air Act Section 112 (b) Hazardous Air Pollutants (HAPs)	: Not listed					
<u>SARA 311/312</u>						
Classification	: Not applicable					
Composition/information	<u>on ingredients</u>					
Date of issue/Date of revision	: 7/21/2017 Date of previous issue : 2/20/2015 Version : 0.03	8/10				

# Section 15. Regulatory information

No products were found.

#### **State regulations**

International regulations

**Canada inventory** 

: All components are listed or exempted.

## Section 16. Other information

Hazardous Material Information System (U.S.A.)

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks Although HMIS® ratings are not required on SDSs under 29 CFR 1910. 1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered mark of the National Paint & Coatings Association (NPCA). HMIS® materials may be purchased exclusively from J. J. Keller (800) 327-6868.

The customer is responsible for determining the PPE code for this material.
