

CARBON | Filters

C100

The C100 is a light duty impregnated filter media with 100 grams of carbon per sq. meter. They are ideal for removal of odors in commercial or light industrial applications.

- ▶ **MERV-8**
- ▶ *Carbon impregnated filter media*
- ▶ *Durable high wet strength beverage board frame*
- ▶ *Rust resistant galvanized dipped*
- ▶ *100 grams of carbon per square meter*

| Item | Size |
|---------------|----------------|
| A12949 | 24" x 24" x 2" |
| A17738 | 16" x 16" x 2" |
| 55099 | 12" x 12" x 2" |
| A90011 | 16" x 16" x 1" |
| A41684 | 24" x 24" x 1" |

C200

The C200 is a heavy duty impregnated filter media with 200 grams of carbon per sq. meter and for removal of odors in commercial or medium industrial applications.

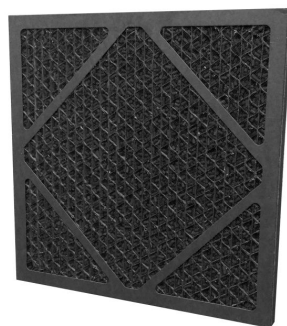

- ▶ **MERV-8**
- ▶ *Carbon impregnated filter media*
- ▶ *Durable high wet strength beverage board frame*
- ▶ *Rust resistant galvanized dipped*
- ▶ *200 grams of carbon per square meter*
- ▶ *2 times the amount of carbon as compared to the C100*

| Item | Size |

| 1646-4481 | 16" x 16" x 2" |
| 1644-4489 | 16" x 16" x 1" |
| 1645-4480 | 24" x 24" x 1" |
| 1640-4586 | 24" x 24" x 1" |
| 1627-4692 | 18" x 24" x 2" |
| 1620-4796 | 16" x 24" x 2" |

ACTIVATED

Activated Carbon works via a process called adsorption to utilize carbon's natural ability to attract and hold gas and liquid molecules on its surface. Ideal for the removal of odors in commercial or heavy industrial applications.

- ▶ *Captures a wide variety of volatile organic compounds (vocs)*
- ▶ *Utilized extruded activated carbon-carbon pellets manufactured to uniform size helps to ensure maximum airflow and maximum contact*
- ▶ *One pound of carbon has 534,438 square yards of available surface – equivalent to the area covered by more than 100 football fields*

| 1698-5552 | 16" x 16" x 1" |

Sentry Carbon Sock Filter

Specifically designed to be used in conjunction with the standard filtration in the Cyclone HEPA Air Scrubber Sentry X4. The Carbon Prefilter slips snugly over the first stage filter retaining cage. The Cyclone Carbon Filter is impregnated with 200 grams of carbon per square meter and is used for removal of smoke and odors.

- ▶ *Smoke and odor removal*
- ▶ *200 grams of carbon per square meter*
- ▶ *Multi density design allows increase carbon coating and secondary dirt holding capacity*
- ▶ *Design allows for a low initial pressure drop, extending the life of the prefilter*
