

Ruwac TUNE-UP KITS

RESTORE YOUR VACUUM TO BRAND NEW CONDITION!

Ruwac's industrial vacuum cleaners are built to last and designed to endure the toughest jobs, but an occasional tune-up will ensure your vacuum system is running at its optimal potential regardless of age. The following maintenance kits for each designated machine are available to provide you with all the right components to get the most out of your Ruwac vacuum so that it continues to exceed performance levels, even when it's going on decades strong!

Tune-Up Kit for WNS2220 / WS2220

#A16960027

- 13 ft.² MicroClean Filter (#20091)
- (2) Single Phase Motors, 120 V, 1000 W (#27002)
- (2) Rocker Motor Switches (#27017)
- 10 mm Round Gasket for Replacement Dustpan (#2509865)

#A16990020

- All of the above plus...
- MicroClean Filter Cage
- Filter Slide Bar
- Filter Slide Assembly w/ Hook

Tune-Up Kit for WS2320-110

#A16980029

- 28 ft.² MicroClean Filter (#30091)
- (3) Single Phase Motors, 120 V, 800 W (#119514)
- (3) Rocker Illuminated Motor Switches (#27017L)
- 10 mm Round Gasket for Replacement Dustpan (#2509865)

#A16910123

- All of the above plus...
- MicroClean Filter Cage
- Filter Slide Bar
- Filter Slide Assembly w/ Hook

Tune-Up Kit for WS2320-220

#A16980029240

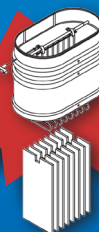

- 28 ft.² MicroClean Filter (#30091)
- (3) Single Phase Motors, 240 V, 1200 W (#116549-13)
- (3) Rocker Illuminated Motor Switches (#27017L)
- 10 mm Round Gasket for Replacement Dustpan (#2509865)

#A16910123

- All of the above plus...
- MicroClean Filter Cage
- Filter Slide Bar
- Filter Slide Assembly w/ Hook

Upgrade to our new Filter Shaker Kit!

NEW FOR 2013!

THE RED LINE PORTABLE VACUUMS

NOW WITH NEW AND IMPROVED MOTOR TECHNOLOGY

Over the past year, Ruwac has been working diligently with motor companies to improve our vacuum technology, increasing brush and bearing life as well as heat absorption in the process. The result is a Ruwac vacuum that will have better performance than ever!

- Longer run cycles
- No overheating
- No premature bearing failure from any outside dust
- New motor technology coupled with Ruwac's sound suppression and cooling chambers on all WS models results in a better vacuum with less maintenance!

Technology so good, we're giving it a 1-year warranty!*

- *Covers motor impellers and bearings, but does not cover brush wear or failure due to incorrect voltage
- Use of additional extension cords if not properly sized may cause premature motor failure
- Continuous run times of longer than two hours may cause premature brush failure

...Plus, our three-year filter life guarantee

WNS1000
"Baby Red"

1.6 Hp
1200 Watt Motor
Single Phase / 110 Volt
7.9 Hg" / 107 H ₂ O"
112 CFM
13 ft ² MicroClean Filter with Manual Shaker System
2" Inlet Connection

WNS2220
"Little Red"

3.2 Hp
(2) 1000 Watt Motor
Single Phase / 110 Volt
7.1 Hg" / 97 H ₂ O"
200 CFM
13 ft ² MicroClean Filter with Manual Shaker System
2" Inlet Connection

WS2220
"Quiet Red"

3.2 Hp
(2) 1000 Watt Motors
Single Phase / 110 Volt
7.1 Hg" / 97 H ₂ O"
200 CFM
13 ft ² MicroClean Filter with Manual Shaker System
2" Inlet Connection

WS2320
"Red Raider"

110 Volt	220 Volt
4 Hp	4 Hp
(3) 800 W Motors	(3) 1200 W Motors
5 Hg" / 75 H ₂ O"	7.5 Hg" / 100 H ₂ O"
288 CFM	340 CFM
28 ft ² MicroClean Filter with Manual Shaker System	
2.75" Inlet Connection	

DUO-VAC

(6) 1200 Watt Motors
Three Phase / 220 Volt
7.2 Hg"
680 CFM
56 ft ² MicroClean Filter with Manual Shaker System
2.75" Inlet Connection

FEATURES

LOW INLET, ANTI-TIP COUNTER-BALANCED BASE

INCLUDES HEAVY DUTY CASTERS FOR EXTREME PORTABILITY

EASY-EMPTY DUSTPAN

FOOT-ACTUATED DROP-DOWN DUSTPAN FOR EASY, DUST-FREE DISPOSAL

FEATURES & BENEFITS

- INTERMITTENT DUTY
- FULLY GROUNDED CONSTRUCTION PREVENTS ELECTRICAL BUILD-UP DURING OPERATION
- NON-SPARKING BY IMPACT
- DURABLE FIBERGLASS COMPRESSION CAST COMPOSITE HOUSING WILL NEVER RUST, DENT OR CRACK -- BACKED BY RUWAC'S LIFETIME GUARANTEE!
- OVULAR VACUUM DESIGN MAXIMIZES CYCLONICS, THUS INCREASING VACUUM CYCLES WITH NO LOSS OF SUCTION
- PERMANENT MICROCLEAN FILTERS ARE 99.9% EFFICIENT @ 0.5 MICRONS
- OVERSIZED FILTER ENSURES MATERIALS WILL NEVER CLOG
- FULLY MODULAR CONSTRUCTION FOR OPTIONAL HEPA / ULPA UPGRADES
- CARBON MODULE FOR VAPOR RECOVERY
- MAINTENANCE-FREE EXTERNAL FILTER CLEANING SYSTEM CLEANS FILTER FROM THE OUTSIDE WITHOUT DISASSEMBLING VACUUM
- SOUND SUPPRESSED MOTORS

ALSO AVAILABLE:
RUWAC'S BAGGER VAC
NEVER EXPOSE OPERATORS TO DIRTY FILTERS WHILE EMPTYING AGAIN!

HEPA
Option
