

KEEP FROM FREEZING

Viper LVT Coating is a durable finish applied to luxury vinyl manufactured flooring. This product will revive the original appearance and renew or even strengthen the original protection, which will improve the performance and prolong the life of your investment.

Contents: One U.S. Quart (.94 Litres)

SETTLING CAN OCCUR. SHAKE TO REMOVE ANY SEDIMENT

- Slightly abrade vinyl surfaces with a low RPM rotary machine and maroon 3M pad, along with a low surfactant cleaner, such as Viper LVT Cleaner. This will help remove and/or repair damaged areas of existing finish.
- Thoroughly clean floor using a micro scrubber and suitable cleaner, such as Viper LVT Cleaner. In heavy soil situations, repeat as necessary for best results. If excess foam is present from previous / poor maintenance, a final clear water rinse with micro scrubber is recommended to further reduce remaining residue.
- Allow to dry prior to application of coating.
- Shake or stir container until any sediment is dissolved. Apply Coating directly to floor in light amounts. Work in small sections (approximately 50 sq. ft.).
- Work Coating into floor with a non-absorbent flat head mop.
- Apply in light amounts (0.5mils), DO NOT over apply or allow to build on surface. Product covers approximately 800 sq. ft to 1,000 sq. ft. per quart, depending on texture and porosity of flooring.
- Best results if applied at temperatures between 55° - 75° F. Dry time is approximately 30 minutes. Wait at least one hour if applying a 2nd coat (optional).

INGREDIENT DISCLOSURE:

Water, Polymer solution mixture, Tripropylene glycol monomethyl ether, Ethylene glycol monopropyl ether, Wax, Aluminum Oxide, Polypropylene Glycol, C16-18 Ethoxylated Alcohols, C9-11 Ethoxylated Alcohols

WARNING

Keep out of reach of children.

HAZARD STATEMENTS:

Causes skin irritation.

PRECAUTIONARY STATEMENTS:

Wear protective gloves and eye protection. IF SWALLOWED, rinse mouth. Do NOT induce vomiting. IF skin irritation occurs, rinse skin with water/shower. If experiencing respiratory symptoms, remove person to fresh air and keep comfortable for breathing. IF IN EYES, rinse cautiously with water for several minutes. Remove contact lenses, continue rinsing. If eye irritation persists: Get medical advice/attention.
