

Oil-Only Sock/Net Boom #WB510SN - 5" x 10', 4 booms/package

Take control of outdoor spill response with Oil-Only Booms.

- Use Sock/Net Booms to Absorb and Contain Oil: Strong mesh outer sleeve encases a poly sock skin filled with highly-sorbent poly blend. Booms won't shed or sink, even when saturated with oil.
- Absorbs Oily Liquids — Repels Water: Poly blend filler is hydrophobic — it repels water (and floats) while only absorbing oils and other hydrocarbons.
- Tough Construction: A nylon rope and sturdy hardware ensure long-lasting durability and easy retrieval.
- Create Customized Sizes: Durable, easy-to-use connectors provide a simple and efficient way to link Sock/Net Booms together and create a containment system big enough to handle almost any size spill on water. Clip together with metal connector hardware. Note: Actual color may vary slightly.
