

Combination Cartridge/Filtrer P100
User Instructions for 3M™ Cartridge/Filters 60221, 60222, 60223, 60224, 60225, 60226, 60229, 60292 and 60293

Ensembles cartouche et filtre P100 combinés
IMPORTANT: Lisez ces User Instructions for reference.

Combinación de Cartoucho/Filtro P100
Instrucciones de uso de los respiradores semiautómatos o totalmente automáticos que utilizan filtros combinados de tipo P3, SL y Clase 1.

Filtros Combinados/P100
Instrucciones de Uso para Filtros Combinados 3M™ 60221, 60222, 60223, 60224, 60225, 60226, 60229, 60292 y 60293

For use only with 3M 6000 Series, 7000 Series and FF-400 Series half and full facepiece respirators according to the NIOSH approval.

This respirator cartridge has dual approval as a United States (US) National Institute for Occupational Safety and Health (NIOSH) Class 1, P3, SL and Class 1 respirator cartridge.

Refer to facepiece User Instructions for Installation.

WARNING
These cartridge/filters help protect against certain airborne contaminants. Misuse may result in sickness or death.

Use cartridge before expiration date.

IMPORTANT
Before use, the wearer must read and understand these User Instructions, and the User Instructions for the 3M 6000 Series, 7000 Series or FF-400 Series half or full facepiece respirator to be used with these combination cartridges.

Utiliser uniquement avec les respirateurs à masque complet et à demi-masque 3M™ des séries 6000, 7000 et FF-400 conformément à l'étiquette d'homologation du NIOSH.

Ces ensembles cartouche et filtre de respirateur détiennent une double homologation : celle du respirateur pour l'Occupational Safety and Health (NIOSH) des États-Unis et celle du ministère du Travail du Brésil, comme ensembles cartouche et filtre combinés P3, SL et de catégorie 1.

Use these User Instructions for reference.
A NISE EN GARDE
Ces ensembles cartouche et filtre protègent contre certains contaminants en suspension dans l'air. Une mauvaise utilisation peut provoquer des problèmes de santé ou la mort.

Utiliser la cartouche avant la date d'expiration.
IMPORTANT
Antes de se servir du produit, l'utilisateur doit lire et comprendre les présentes directives d'utilisation et les directives d'utilisation combinées avec les respirateurs à masque complet 3M™ de séries 6000, 7000 et FF-400.

Sólo para uso con Respiradores de pieza facial de cara completa y media cara 3M™ Serie 6000, Serie 7000 y FF-400 de acuerdo con la etiqueta de aprobación del Instituto Nacional de Seguridad y Salud Ocupacional (NIOSH) por sus siglas en inglés.

Este cartouche de respirador cuenta con una aprobación dual como filtro de cartucho químico/P100 por el Instituto Nacional de Seguridad y Salud Ocupacional (NIOSH) por sus siglas en inglés) y como cartouche de cartucho-filtro de Clase 1, P3, SL y Clase 1 pelo Ministério do Trabalho de Brasil. Si aplica, se proporciona información específica. La demás información es como para ambient normal.

ADVERTENCIA
Estos cartuchos/filtros ayudan a proteger contra ciertos contaminantes suspendidos en el aire. El mal uso puede causar enfermedad o incluso la muerte. Para su uso adecuado consulte a su supervisor, lea las instrucciones, o llame a 3M en EUA al 1-800-243-4630.

IMPORTANT NOTE
Antes de usar el producto, el usuario debe leer y entender las instrucciones de uso de la pieza facial de cara completa y media cara 3M™ Serie 6000, Serie 7000 y FF-400 de acuerdo con la etiqueta de aprobación de combinación.

Biological Particles
These cartridge/filters can help reduce inhalation exposures to certain airborne biological particles (e.g. mold, Bacillus anthracis, avian influenza, Mycobacterium tuberculosis, etc.) but cannot eliminate the risk of contracting infection, illness or disease.

Use Instructions
1. Failure to follow all instructions and limitations on the use of these cartridge/filters and/or failure to wear the respirator during all times of exposure can reduce respirator effectiveness and may result in sickness or death.

Before occupational use of these cartridge/filters, a written respiratory protection program must be implemented meeting all the local applicable regulations. In the U.S., follow OSHA 29 CFR 1910.134 which includes medical evaluation, fitting and fit testing. The U.S. users must also comply with applicable OSHA substance specific standards.

Use Limitations
1. These cartridge/filters do not supply oxygen. Do not use in atmospheres containing less than 19.5% oxygen.
2. Do not use when concentrations of contaminants :
– are immediately dangerous to life or health (IDLH),
– are unknown,

Do not alter, clean (e.g., vacuum, wash, use compressed air), abuse or misuse these cartridge/filters and/or respirator.
Do not use with beard or other facial hair or other conditions that prevent a good seal between the face and the sealing surface of the respirator.

In Brazil, according to the Respiratory Protection Program of the Ministry of Labor, do not use when concentrations of contaminants are greater than 10 times the permissible exposure limit using a full facepiece, or 100 times the permissible exposure limit using a half facepiece.

Time Use Limitations
1. Replace cartridge/filters in accordance with an established change schedule or earlier if smelly, soiled or irritation from contaminants is detected.
2. If cartridge/filtr becomes damaged, soiled, or breathing becomes difficult, leave the contaminated area immediately and replace the cartridges.

Special Instructions for 3M™ Cartridge/Filtrer 60292, Mercury Vapor/Chlorine Gas and 3M™ Mercury Vapor/Chlorine or Sulfur Dioxide Gas Cartridge/P100 Filter 60292S

3M™ Mercury Vapor Cartridges (60292 and 60292S) are equipped with passive 3M™ End of Service Life Indicators (ESLI) for mercury vapor. The color change indicator must be readily visible when wearing the respirator without manipulation. If you cannot readily see the ESLI, do not use.

NIOSH Approval: See NIOSH approval label insert
For Compliance in Brazil NOTE:
Combination Cartridge/Filtrer 6000 Series - Class 1, P3, SL
The cartridges assembly in the facepieces is done by bayonet plug, aligning cartouche with facepiece.

3M™ 60221: Respiratory Protection against Organic Vapors - Class 1 and Particulate
3M™ 60222: Respiratory Protection against Acid Gases (chlorine gas, hydrogen chloride/sulfur dioxide or chlorine dioxide or hydrogen sulfide) - Class 1 and Particulate
3M™ 60223: Respiratory Protection against Organic Vapors/Acid Gases - Class 1 and Particulate
3M™ 60224: Respiratory Protection against Ammonia and Methyleneimine - Class 1 and Particulate
3M™ 60225: Respiratory Protection against Formaldehyde and Organic Vapors - Class 1 and Particulate
3M™ 60226: Respiratory Protection against some organic vapors, chlorine gas, hydrogen chloride, sulfur dioxide, chlorine dioxide, hydrogen sulfide, ammonia/methyleneimine, formaldehyde or hydrogen fluoride (multi-gas) - Class 1 and Particulate
3M™ 60227: Respiratory Protection against Formaldehyde, Chlorine Gas and Hydrogen Sulfide - Class 1 and Particulate
3M™ 60228: Respiratory Protection against Mercury Vapor, Chlorine Gas or Sulfur Dioxide Gas - Class 1 and Particulate

Rows include model numbers and protection details.

- 1. PROTECTION
P100 - Particulate Filter (99.97% filter efficiency level) effective against all particulate aerosols.
2. AUXILIARY COMPONENTS
A - Not for use in atmospheres containing less than 19.5 percent oxygen.
B - Not for use in atmospheres immediately dangerous to life or health.
C - Do not exceed maximum use concentrations established by regulatory standards.
D - Air-line respirators can be used only when the respirators are supplied with respirable air meeting the requirements of CGA G-7-1 Grade D or higher quality.
E - Only use the pressure ranges and hose lengths specified in the User's Instructions.
F - If flow is not set, switch to filter and/or cartridge and canister and immediately exit to clean air.
G - Follow established cartridge and canister change schedules or observe ESLI to ensure that cartridge and canisters are replaced before breakthrough occurs.
H - Follow to properly use and maintain this product could result in injury or death.
I - The Occupational Safety and Health Administration regulations require gas-proof goggles to be worn with this respirator when used against formaldehyde.
J - Follow the manufacturer's User Instructions for changing cartridges, canister and/or filters.
M - All approved respirators shall be selected, fitted, used, and maintained in accordance with MSHA, OSHA, and other applicable regulations.
N - Never substitute, modify, alter, or omit parts. Use only exact replacement parts in the configuration as specified by the manufacturer.
O - Refer to User's Instructions, and maintenance manuals for information on use and maintenance of these respirators.
P - NIOSH does not evaluate respirators for use as surgical masks.
S - Special or critical User's Instructions and/or specific use limitations may apply. Refer to User's Instructions before donning.
