EXPANDS TO 5FT  
Both Packed 6

## MOP CHART

### FIBERS:

#### Cotton Mops—Basic Cleaning Needs!

The cut-end is the standard, most popular and MOST economical (in the beginning) mop style. Great for absorbing liquids. Used for spills, and basic floor cleaning at the lowest cost. They are a disposable item since they cannot be laundered and are not recommended for use with laying finish as they absorb too much liquid. Cotton mops need a break in period due to the natural oils in the fiber.

#### Rayon Mops—Great for Finish!

Rayon mops lint much less than cotton mops and have a slower absorption rate making this a cost effective mop to lay finish. Rayon mops need no break in period and can be used for basic cleaning needs.

#### Blended Mops—Commercial Use!

Blended mops offer the best combination of water retention/strength and performance. These are the choice of healthcare/commercial users.

### STYLES:

#### Cut-End Mops—Lowest Cost!

Low initial cost, but not long lasting. Poor coverage area and tends to lint leaving yarn on floors. Tangles frequently due to the loose fibers.

#### Looped Mops—Improved Performance!

Looped-end mops perform better and last longer. They have a better coverage area than cut end mops and lint much less.

### Pick the Right Mop

## JANITORIAL GRADE, INDUSTRIAL QUALITY MESH BAND MOPS

## Wide Nylon Scrubbing Band

### SADDLE LOOPS MOPS

100% COTTON • Low lint

5" WIDE MESH BAND
