

WATERJEL® BURN DRESSING

STERILE GEL-SOAKED

- Stops the burning process . . . the “immediate cooling” of burns is recommended by most EMS protocols and curriculum.
- Helps prevent contamination . . . covers and protects burn injuries.
- Water-based, water-soluble gel rinses off quickly with water or saline

BURN DRESSINGS THAT COOL THE BURN AND RELIEVE PAIN

Water-based technology that revolutionized emergency first aid treatment of burns, Water-Jel gel-soaked Burn Dressings are the first response for burn injuries. This medical device is a non-woven dressing that contains no active ingredients or drugs, and is latex-free. Used by EMS, Industrial Health & Safety professionals and the U.S. Military around the world, Water-Jel Burn Dressings come in six sizes to accommodate any burn emergency.

EACH DRESSING HAS A TBSA ICON WHICH INDICATES APPROXIMATE TOTAL BODY SURFACE AREA COVERED WITH THE USE OF THAT DRESSING

BURN DRESSINGS THAT COOL THE BURN AND RELIEVE PAIN

- One-step relief for Emergency First Aid when someone has been burned. It puts out the fire, stops burn progression & cools the skin, eases pain and protects against airborne contamination.
- Water-Jel Burn Dressings are made up of a scientifically formulated cooling gel and a medical-grade non-woven pad.
- The dressings are soaked in a water-based / water-soluble, bacteriostatic & biodegradable gel and sterilized to ensure a contamination free atmosphere for emergency treatment of burns.
- It takes no special training to give fast and effective emergency burn care for any type of burn injury.

2 x 6 Burn Dressing

Conveniently sized dressing, designed to wrap around a wrist, between the fingers — keeping them separated, and for the inner arm, foot instep, or areas where this size dressing would be suited. Gel-soaked. Sterile. Foil Packed. Shelf Life: 5 years. TBSA - Adult: 1% Child: 2%
