OmniPro Soot Wash solves the 3 main issues with cleaning soot-contaminated textiles.

1) Hard-to-remove soot stains.

Soot Wash surfactants penetrate deep into textiles to remove stubborn soot stains and then loosen soot from the fibers through charge-charge interaction.

2) Strong smoke odors.

Soot Wash boosted by OmniPro Smoke & More - Original neutralizes odors with an odor encapsulant and unique fragrance that gets rinsed away after cleaning.

3) Redeposition of soot particles.

Once soot has been removed from the textile it can reattach when sitting in a washing machines. Soot Wash contains ions that prevent re-staining from occurring and allows for thorough removal of stains.
