

# TILE POLISHING POWDER

## Technical Information

### Tile Polishing Powder

#### Product Description:

Tile Polishing Powder (TPP) is a step 2 process that eliminates the need for waxing, striping, and spray buffing. With TPP, gone is the age old problem of dirty grout lines created from the build up of old floor finish.

TPP is an excellent product for producing a non scuffing, long lasting polish on ceramic and porcelain tiles which have a matte finish.

#### Special Features:

1. Long lasting. In high traffic areas, a one time application will last over 2 years.
2. Non scuffing and non yellowing.
3. No need for floor finish.
4. Produces an excellent polish on matte finish ceramic & porcelain tiles.
5. Greatly reduces maintenance on tile floors and grout lines.
6. Improves cleanliness and appearance.

#### Where and When to Use:

Use on any homogenous ceramic or porcelain tile. Not for use on tiles with an artificial or baked on glazed finish/

#### Packaging:

- 5 lb
- 25 lb

#### Directions for use:

##### TPP A

1. Protect adjacent areas with protecto plastic.
2. Wet floor lightly
3. Sprinkle 2 oz. of TPP A onto surface.
4. Set a natural hair or white buffing pad onto powder.
5. Break areas up into 10 sq. ft. sections.
6. Using a CCG machine buff TPP A until the tile is smooth.
7. Rinse the surface 2 times to remove all TPP A residue.
8. Follow the TPP A with TPP B.

##### TPP B

1. Protect adjacent areas with protecto plastic. wet a 25 sq. ft area.
2. Using a natural (hog hair) pad, the TPP B should be buffed into a slurry over the 25 sq ft area. Add water as necessary to maintain proper slurry consistency.
3. Work the powder slowly over the area for approximately 10 minutes.

4. When the desired level of gloss has been reached. wet vac the area thoroughly.
5. Use KlearSeal to Seal Grout Lines

#### Notes:

1 lb of TPP will cover approximately 200 sq ft. See KlearSeal technical data sheet for proper directions for sealing grout lines.

#### Maintenance:

Sweep and mop as needed. Clean using VMC ProKlenz weekly or as needed to keep the floor clean.

#### Product Specifications:

Physical State: Powder  
Order: None  
Appearance: Fine Powder  
ph: N/A  
Solubility in water: Partial  
Specific Gravity: None

#### Precautions Summary:

Eyes: Irritating  
Skin: Irritating  
Inhalation: Acute Exposure. If handled irresponsibly, may cause irritation and corrosion of mucous membranes.  
Ingestion: likely to be corrosive to the mucous membranes of the digestive tract.
